		1				It's a good idea to improve traffic calming effects. There are too many vehicles parked on Cardigan Terrace too, which is dangerous for anyone trying to cross roads. I think there should be proper off-road facilities, without taking up any green areas meant for public use.
			1		The cost, it should have been implemented first time around.	
		1				The existing humps are totally inadequate. Cars are straddling them and racing down the road. In college term time it is worse, with so many cars parked on either side of the road.
				1		I'm only here for a year.
				1		I'm not bothered.
		1				I deliver around Heaton and the current speed humps are terrible and cause damage to my car. Some are far too high and some are hard to see. I believe they should only restrict you to 30 miles per hour and not 5 miles per hour.
		1				
			1		The speed of traffic is not excessive. I don't think that it is necessary.	
		1				The scheme sounds fine and humps sound much better. I just hope there will not be too much disruption.

		1				I have no objection, I can't see a problem.
		1				I have no objection. There's too much fast traffic down here. I hope there is not too much mess and noise when it's done.
				1		It won't bother me at all.
		1				There's too much speeding so it's a good idea, I have no objection.
		1				It's needed and I don't object.
			1			
			1		I'd rather there were no humps at all. It's very inconvenient. The present ones are too big. They could cause problems with parking also.	
				1		Neither of us have cars so we are not bothered.
				1		Nobody in this house has a car, I'm not effected.
				1		It doesn't bother me.
		1				It sounds okay, I have no objection.
		1				
		1				
		1				I'm a driver, but speeding is a real problem in this street; I've nearly been knocked down before. I definitely approve.
		1				I have no objection, no problem with it.
				1		I don't drive, it won't affect me.
		1				I approve, the road definitely needs resurfacing.
				1		I don't have a car.
		1				None of the residents have any objections.
				1		It won't affect me.
				1		I don't have a car, it won't affect me.
				1		I'm not a driver, nobody in the house is. I hope there is not too much disruption whilst work is being carried out.

		1				The speed bumps that are currently in place aren't effective because cars can bypass them. New ones are needed to slow down the traffic.
		1				Cars, particularly taxis speed down our road. It is extremely dangerous in a residential area for them to be able to drive straight over the speed bumps with no effect. There are young families on the road. We would also appreciate a larger speed bump at the entry and exit of the road, like on Falmouth road.
		1				I'm not really bothered. I don't have a car but if it slows down a few lunatics it must be a good idea.
			1		It could cause more problems with parking, it should be left as it is.	
		1				It's needed but as long as new humps don't damage the car, some in the area in Rothbury Terrace are savage.
			1		Please do not put speed humps outside of 37 and 38 Cardigan Terrace. I live at 42 and the house shakes everytime something goes over the existing hump. Please remove it entirely and restore an ordinary, plain, flat, road surface. If you would like this shaking please contact me.	
		1				There is a lot of speeding on Cardigan Terrace and hopefully these speed humps will improve the situation and prevent speeding.
		1				Speeding is a problem in this street, they fly up and down. I'm definitely for it.
				1		It doesn't bother me, I have no objection.
		1				I have no objection if it improves the street.

			1		Not required, cars can't speed as there are so many parked cars. I don't know why you are messing about with it.	
			1		I know this type of speed hump and I don't like them. It's too disruptive too.	
		1				Traffic is very fast down Cardigan Terrace despite the present humps. Cars just drive straight over them.
		1				People drive very fast up and down this street, and sometimes wing mirrors get hit. Better gutting is required to prevent water sitting at the side of the road.
		1				It's much needed, there's a lot of fast traffic in the street (especially taxis). It's very noisy at night. I definitely approve of the scheme.
		1				A lot of traffic speeds in this street. It definitely should be done.
		1				It's much needed. I don't think these new humps will cause vibration problems like the old ones (the ones before these ones). The number 1 bus has been re-routed now.
				1		I'm not bothered, I have no objections.
			1		I don't want to drive over them in my street, they damage cars. It will be very disruptive too. It's fine as it is.	
		1				It sounds like the new humps will be better and I have no objections. I hope there will not be too much disruption when it's being done.
			1		They're okay as they are. I think the new ones may damage the car.	
		1				My girlfriend has a bike and thinks they should change and my housemate works nights and this keeps him awake.

		1				I have no objection, it sounds fine to me.
		1				It should be better than existing ones, they just drive between them.
		1				It sounds fine to me, I'm not bothered.
		1				There was an accident involving a stationary car and I believe that speed contributed to the accident on Cardigan Terrace. Cars exceed 30 mph (especially taxis). It is used as a rat run as current speed bumps are ineffective. There has been an increase in families with young children living in the area. Traffic calming measures will encourage families to stay in the area and benefit the community.
		1				Current ones are a joke. These new ones seem much better and effective.
		1				It sounds much better, I have no objection.
			1		I think that bigger humps would cause more accidents. There's always accidents at this junction anyway. It won't make any difference what we say.	
		1				As long as it doesn't effect parking I don't object.
		1				I've just moved in, but I agree with speed humps in principle so I have no objection to the scheme.
		1				Although as a motorist I despise speed bumps, due to the increased wear on my car, I agree these are needed to reduce the speeds of some cars, and due to the fact that the current speed humps fit between a cars wheels.

		1				At present, this street is little more than a corridor for drivers, most of whom give no regard to speed limits whatsoever, and the existing cushioning provides little or no hinderance. This work was already started some five months ago then suddenly aborted, leaving us with flooding because of preliminary work around the gullies that prevents rain water draining away. So can we have some action either way?
		1				I approve of the idea, new humps seem better. As long as the number 1 bus is not rerouted back along here as this causes a lot of vibration.
				1		I'm elderly, it wouldn't bother me.
		1				There should be more, at least four due to speeds and recent accidents on Cardigan Terrace and to increase child safety.
				1		It won't bother me.

Name	Address	For	Against	Undecided	If 'no' tell us why	Comments
			1		I thought the existing cushions were useless until I saw the proposed replacements, laughable. 0.1m high, absolutely useless. Nicely graduated too so speeders don't feel too much of a difference. Double the height to 20 cm with 10 cm at the sides and you might be on to a winner.	
				1		No objections.
		1				Present humps are useless and these sound much better.
				1		We don't have a car.
				1		I'm not bothered, I'm totally indifferent.
		1				I have no objections.
				1		It won't effect me as I don't have a car. It sounds okay to me though.
			1		I don't think these proposed humps are worthwhile, we need the bigger ones.	
		1				Although I'm not keen on speed humps I can see the need for it so I agree with the scheme.
				1		I know nobody else in the house who is bothered either.
		1				It's not a problem, I have a bike and it should be okay.
		1				It's a good idea, I have no objections.
		1				I don't drive, it won't affect me.
		1				I have no objection, I don't think anyone in the house would object.
			1		Speed humps make it difficult to park, I have complained to the Councillor and he doesn't seem to care.	
				1		Nobody in this house has any objections.
				1		We're all students, none of us drive.
